

The U.S. Dept. of Agriculture  
Dairy Forage Research Facility, Madison, Wisconsin

In a hurry to get there

Going back to school

# Kids Learning about the Agricultural Sciences

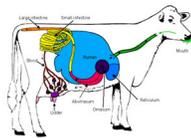

Getting booted up

With the cows

Reaching in to  
Get samples

Preparing samples for analysis

Analysis of stomach organisms

Gaining instruction about chromatography

Looking seriously at the problem

Conducting the experiment

Plant have different sexes

Well look at this!  
Real science!

Male flower

Female flower

Look we all have  
male and female flowers

DNA mixes when you pollinate  
and makes new types

Let's pollinate and  
see what we get

We work to put better food in your shopping cart
